

Caryll Franz M. Carino

0968 705 6310 — caryllcarino@gmail.com — Portfolio — GitHub — LinkedIn

PROFESSIONAL SUMMARY

Software Analyst with experience in Python, SQL, Java, AI application development, and workflow automation. Passionate about building AI-powered and data-driven solutions, with interests in Data Engineering, AI Engineering, and Machine Learning.

TECHNICAL SKILLS

Languages: Python, SQL, Java, JavaScript

Frameworks: FastAPI, Spring Boot, React Native

Databases: PostgreSQL, MySQL, Supabase

Cloud & Tools: Azure, Docker, Git

AI: Azure OpenAI, OpenRouter API, RAG, Prompt Engineering, ChatGPT, Claude

EXPERIENCE

Accenture

2024 – Present

Mandaluyong, Philippines

Software Analyst

2026 – Present

- Developed Python scripts to automate SQL reporting workflows and reduce manual effort.
- Maintained and enhanced enterprise Java applications running in Oracle environments.
- Built workflow automations using Microsoft Power Automate.

Associate Software Engineer

2024 – 2025

- Completed Full Stack Java training covering Java, Spring Boot, SQL, HTML, CSS, and JavaScript.
- Maintained enterprise applications and resolved production issues using ServiceNow.

Techomancer Inc.

2023

Web Developer Intern

Quezon City, Philippines

- Developed and maintained web applications using PHP, Laravel, MySQL, JavaScript, HTML, and CSS.

PROJECTS

BabAI | React Native, FastAPI, Supabase, Python, OpenRouter API

GitHub

- Developed an AI-powered commuter assistant with GPS-based station detection, destination alerts, and an integrated AI chatbot.

Azure AI Helpdesk Chatbot | Azure OpenAI, Azure AI Search, Python, RAG

- Built an enterprise AI chatbot using Azure OpenAI and Retrieval-Augmented Generation (RAG) for document-based knowledge retrieval.

DS Salary Predictor | Python, XGBoost, SHAP, Streamlit

GitHub

- Built an end-to-end machine learning pipeline to predict data science salaries using XGBoost with SHAP explainability.

SpotSecure (Thesis) | Flutter, Python, Plate Recognizer API, REST API

GitHub

- Built a smart parking reservation system with automatic license plate recognition.
- Integrated Flutter, REST APIs, Raspberry Pi, and IoT hardware for automated vehicle access.

EDUCATION

Adamson University

2024

B.S. Computer Engineering

Manila

CERTIFICATIONS

Claude 101 (Anthropic)

Intermediate Python (DataCamp)

Data Analytics Essentials (Cisco)

Python & Advanced SQL (Kaggle)
